## Part Number

**HML30-W-600-24VDC-P12**

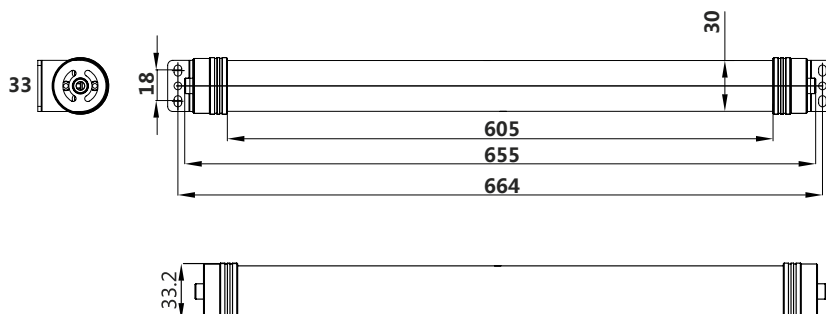

## Features

- Compact and Cost Effective
- Polycarbonate and ABS Body
- Very Bright, Long Life
- Easy to Install

## Connection

## Dimensions

## Technical Data

|                       |                            |
|-----------------------|----------------------------|
| Body Style            | Cylindrical                |
| Light Source          | LED                        |
| Colour                | White (5000K)              |
| Operating Voltage     | 24 V DC                    |
| Current Consumption   | 900 mA                     |
| Illuminated Length    | 605 mm                     |
| Input Type            | -                          |
| Connection            | M12 A Coded                |
| Connection Type       | 0.3 m Pigtail              |
| Operating Temperature | -40 C to +50 C             |
| IP Rating             | IP 67                      |
| Housing Material      | Polycarbonate, End Cap ABS |
| Lense Material        | Polycarbonate              |
| Dimensions (mm)       | 664 x 33 x 40              |
